

Considering divorce?

Free Consultation where you can learn about your options.

Go it alone.

**Information Gathering:** Give us your financial documents and information, and let us worry about the financial ins and outs while you focus on you.

**Analysis:** We'll analyze your finances and compile an easy to understand report, giving you settlement options and a built-in financial plan.

**Settlement Negotiation:** We'll meet with you and your spouse to discuss our findings and talk through different options until an agreement is reached. Sometimes more than one meeting is needed.

**Documentation:** We'll compile the agreed upon settlement terms in a summary of meetings that your attorney can reference when drafting your divorce decree.
